GET THIS BOOK

"Engraving for College and School Publications"

It will save you money in getting out your annual

This book should be in the hands of every editor and business manager. It will save you money—prevent costly mistakes in laying out your work and in buying engravings.

It is a book of thorough instruction. Contains 164 pages and over 300 illustrations. It covers every phase of the engraving question relating to all college and school publications.

It was prepared at great cost by our staff of engraving experts, who are specialists in the production of halftones, color plates, zinc etchings, and designs for college and school publications.

This book is not for sale, but is loaned, as a special privilege, to the staff of each publication for which we do the engraving.

Write us and we will tell you how to obtain a copy of this valuable book for your use.

Engravings for College and School Publications a Specialty

CENTURY BUILDING INDIANAPOLIS, IND.

We make a specialty of fine copper plate and steel die embossed stationery, such as commencement invitations, visiting cards, fraternity stationery, etc.

Acid Blast Halftones

All of our halftones are etched by the Levy Acid Blast process, which insures deeper and more evenly etched plates than it is possible to get by the old tub process, thus insuring best possible results from the printer.

The engravings for this annual were made by us.

Mail orders a specialty.

You Need Shur-ons

IF YOU NEED GLASSES

Defective vision, rather than neglect to study, keeps many children behind in school work.

Defective vision does not convey the right message to the brain and the brain cannot act upon the suggestion received.

Are you behind in your studies.

If you are and feel that it is due to defective eyesight rather than neglect to study, suggest to your parents that you have me examine your eyes.

I can tell you whether it is glasses or something else you need to do better work.

Suggest it to your parents.

Young Men Need Life Assurance

If they do not buy it now, they may never be able to get it again. Young Men need Life Assurance to induce them to start the habit of saving. Young Men need Life Assurance because sometime they will be married. It is better to have policies several years old purchased at premiums for a younger age than to risk not being able to get any policy even at the higher premium when the responsibilities of married men come on. Children need Life Assurance. A policy taken on the life of many a child will send him to college when he is old enough to go there. People in debt need Life Assurance. If a man has an indebtedness he cannot readily pay when living, how can his family pay it when he is dead?
